

I own my own business and K-LOVE is always playing. For me, this a great witnessing tool and also a way of letting people know who I am and that attitude that I expect in my business. Our business and home is out of town where K-LOVE is broadcast. If it is displaced by an LPFM we will not be able to receive it. I have introduced many of my customers and friends to Christ through K-LOVE. I would hate to think of what will happen if it displaced. Please do not displace them.
